and Technology, OOU

SUMMARY

I am a dedicated and committed individual with enthusiasm for the teaching and learning process and passion for nurturing students for holistic growth. I have successfully taught physics and mathematics at university, secondary and A level tutoring levels, designing interactive lessons plans that improve student comprehension and performance. My expertise extends to classrooms management, curriculum development and integrating digital tools to enhance learning. I have also contributed to student development beyond classroom by mentoring, coordinating projects and fostering a passion for STEM education
