About Me

I am Joseph Asam and I am a creative and driven Software Engineer with experience in software development, UI/UX, graphic design, and digital technology. Skilled in creating responsive web experiences and visual solutions using modern technologies and design tools. Currently expanding my expertise in AI, machine learning, and data science, with a strong passion for innovation, problem-solving, and building technology that creates real-world impact.

Experience

Website Development 2023 – Present

Built responsive websites and landing pages for small businesses. Handled everything from UI design to software development, gaining full-stack creative confidence.

Seplat Energy (Seplat Pegasus) June 2026

Created social media event designs for the Education arm of Seplat Energy (Seplat Pegasus) for their International Career Fair and other subsequent design flyers.

SolarRock Technologies April 2026 – Present

Leading brand identity and visual design projects for SolarRock Tech across business, AI, and data analytics. Delivering end-to-end creative solutions from concept to final deliverables.

AfroPLAY March 2026 – Present

Developed social media designs for an African web3 gaming industry.

Education

Divine Seeds High School WASSCE

October 2021

Ritman University B.Sc Software Engineering

October 2022 – August 2026
