

ABASS KABIRAT OYINKANSOLA

Microbiology Graduate | Research | Administration | Customer Relations

Lagos, Nigeria +234 813 956 7236 kabiratcontact@gmail.com

PROFESSIONAL SUMMARY

Results-driven Microbiology graduate with practical experience across laboratory research, clinical data management, customer service, and marketing. Proven ability to operate effectively in both scientific and commercial environments, from antimicrobial resistance research at NIMR and LUTH to client-facing roles in high-volume markets. Highly organised, adaptable, and communication-focused, with a consistent record of accurate work under pressure. Fluent in English and Yoruba.

CORE COMPETENCIES

Laboratory & Scientific	Administration & Communication	Interpersonal & Soft Skills
• Microbial culture and aseptic technique • Gram staining and microscopy • Antimicrobial susceptibility testing • Phlebotomy and sample processing • Research data collection • Media preparation and sterilisation	• Client correspondence and outreach • Report writing and documentation • Record keeping and data entry • Proposal and materials drafting • MS Word and Google Docs • Confidential information handling	• Cross-functional team collaboration • Active listening and empathy • Adaptability across sectors • Time management and multitasking • Public speaking and presentation • Fast learner, coachable, proactive

PROFESSIONAL EXPERIENCE

Pump Attendant

First Belvic Nig Limited | Cele-Nizer, Lagos | April 2026 to June 2026

- Accurately dispensed petroleum products and processed customer transactions in a high-volume service environment.
- Maintained strict safety, hygiene, and operational standards at all times.
- Delivered prompt and courteous service, consistently ensuring a positive customer experience.

Marketing Executive

Imortar Professional Audio Company Nig Ltd | Alaba International Market, Lagos | March 2025 to April 2025

- Managed professional client outreach via phone, email, and WhatsApp, targeting churches, event planners, and corporate clients.
- Drafted proposals, PDF documentation, and marketing materials to support business development.
- Maintained detailed client interaction records and coordinated with internal stakeholders to ensure seamless follow-through.

Research Assistant

Lagos University Teaching Hospital (LUTH) | 2024 | PTSD Study in HIV-Positive Individuals

- Assisted in data collection, questionnaire administration, and ethical documentation across a sensitive clinical research study.
- Collaborated with clinical staff and psychologists in a structured hospital research environment.
- Maintained accurate, confidential records of participant information in compliance with ethical standards.

Laboratory Intern

Nigerian Institute of Medical Research (NIMR) | March 2024 to September 2024

- Performed hands-on laboratory work: microbial culturing, gram staining, microscopy, antimicrobial susceptibility testing, agar preparation, phlebotomy, and sample separation.
- Managed sample labelling, documentation, and record keeping under strict biosafety protocols.
- Operated within structured professional research teams, demonstrating precision, reliability, and attention to detail.

Student Coordinator, TEC Innovation Summit

University of Ilorin | Unilorin African Support Bureau for Entrepreneurship (ASBE) | 2023

- Led student teams through end-to-end production, quality control, packaging, and marketing of Ogi (fermented cereal pap).
- Managed task scheduling and tracked team progress to ensure timely, coordinated delivery.
- Liaised with programme leads and team members to maintain clear communication throughout.

Community Health Awareness Volunteer

Lagos, Nigeria | 2019 to Present

- Facilitated informal and small-group community discussions on hygiene, disease prevention, vaccination, and responsible antibiotic use.
- Encouraged adoption of evidence-based health practices among neighbours, friends, and local community members.

EDUCATION

B.Sc. Microbiology

University of Ilorin, Kwara State, Nigeria | 2020 to 2025

- Relevant Coursework: Medical Microbiology, Virology, Immunology, Epidemiology, Pharmaceutical Microbiology, Microbial Genomics, Laboratory Techniques.
- Undergraduate Research: Evaluated the antibacterial potential of *Azadirachta indica* (neem) extract against multidrug-resistant *Staphylococcus aureus*, *Klebsiella pneumoniae*, and *Pseudomonas aeruginosa*; measured inhibition zones and recorded comparative resistance data.
- Lactobacillus Study: Isolated and identified *Lactobacillus* species from yoghurt using MRS agar and microscopy; explored probiotic potential and food safety significance.
- Academic Seminar: Presented on Community Engagement in Antimicrobial Stewardship (AMS), covering public awareness, antibiotic regulation, and stewardship strategies.

CERTIFICATIONS AND TRAINING

- Certificate of Completion, U-INSPIRE 12-Week Leadership and Web Development Programme, University of Ilorin, 2025. Training covered digital innovation, teamwork, and project-based online collaboration.
