Objective

A Data Analyst and Automated App Developer with 5 years of experience in the Tech industry I help to transform raw data into actionable insights making use of Advance Excel, Power Bi, SQL and python, Experience in Agriculture data Analysis, Education and Research Data, Fintech data analysis, Geospatial analysis, software development. I'm passionate about using my skills to drive business/organization decisions and improve operational efficiency.

Experience

- Olam Food Ingredients (ofi)** 2024 - Present
Data Analyst Officer
 - Conduct research and gather information from company Application and present findings using PowerB.I/Excel
 - Collected and developed working template use by the team members for the company
 - Use of geospatial tools (QGIS, Basecamp, R) to analyze and monitor team members location correctly before uploading it to company's OneDrive and website
 - Use Google earth pro and R to check overlapping polygons sent by the team members.
 - Developed and building of working Applications for better data analyzing
- iWord Technology** Feb 2021 - September 2021
Internship
 - Assisted in collecting, cleaning and organizing large dataset using PowerB.I and other company's reporting tools.
 - Conducted data validation and quality check to ensure accuracy and reliability of information used in day to day activities in the company
 - Supported the creation of automated cloud reporting using Power Automate.
 - Work under the technical team to Understand how Wifi are being installed and tracked.
- Sabi Programming** Jan, 2023 - Dec, 2023
Data and Application Internship
 - Learning and understanding of programming tools such as Javascript for Web App development.
 - Learning and understanding of Kotlin/Java for mobile application development
 - Learning of PowerB.I, Excel to fully understand the flow in industry
- Remote** 2024 - 2025
AI Data Annotator
 - Labeled and annotated datasets including text and images for AI training purposes
 - Reviewed and corrected data to improve accuracy and consistency
 - Followed annotation guidelines to maintain high-quality standards
 - Categorized and tagged data to support machine learning models
 - Performed quality checks and validation on annotated datasets

Education

- Federal University of Technology Akure (FUTA)** 2015-2019
B.Tech in Biochemistry
Second Class
- Scholars International Institute of Technology** 2021
Computer Programming

Skills

- AI Data Annotation (Image, Text & Audio Data)
- Power BI
- Advance Excel
- R Programming
- Automation App developer (Web and Mobile App)
- Qgis, Google earth pro for Geospatial analysis
- BaseCamp

Certification

- Data Science Foundation
- PowerBi Course
- SQL for Data Analysis

Projects

- **Automation App Development**
Build Automated App that help in Analyzing repetitive dataset
- **Development of Tracking App**
Build tracking Applications that can be used to get geopoint in the farm and field.
- **Power BI Projects**
Built Power Bi Dashboard analyzing trends in reporting and submission.
- **Development of WhatsApp Analyzer**
Developed Application that helps analyzing Chat and Report for a WhatsApp report instead of manual counting

Achievements & Awards

- ofi WOW! Outstanding Data Manager for Q3, 2024
- ofi M&E Team Excellent in execution award 2026
- Ofi WOW! Outstanding Data Manager for Q1, 2026
