PROFESSIONAL SUMMARY

Recent graduate with a B.Sc. in Pharmacology, Toxicology and Therapeutics from Lagos State University College of Medicine, with hands-on pharmaceutical industry experience through a six-month internship at Cardinal Drugs Limited. Detail-oriented and organized, with knowledge of pharmaceutical products and a genuine interest in pharmacy operations and patient-focused healthcare services. Demonstrate strong communication, accuracy, teamwork, willingness to learn, and ability to work within established procedures. Seeking an entry-level pharmacy assistant or pharmacy support position where I can contribute my pharmaceutical knowledge and industry experience while developing practical community-pharmacy experience under professional supervision.

CORE SKILLS

Pharmaceutical Quality Control • Research Methodology • Primary Data Collection • Data Entry & Basic Computer Skills • Microsoft Excel • Data Management • Scientific Research & Reporting • Leadership • Communication • Customer Service • Teamwork • Critical Thinking • Problem Solving • Canva & Basic Graphic Design • Attention to details

PROFESSIONAL EXPERIENCE

Cardinal Drugs Limited — Pharmaceutical Intern | May 2025 – December 2025

- Gained practical experience across Quality Control, Production and Packaging departments within a pharmaceutical manufacturing environment.
- Supported routine quality control activities and monitored processes to ensure adherence to established protocols and standard operating procedures.
- Developed practical knowledge of pharmaceutical manufacturing, quality requirements and workplace compliance.

RESEARCH EXPERIENCE

Final-Year Research Project — Preferred Product Characteristics for Antihypertensive Drugs in LASUTH

- Conducted primary data collection through structured questionnaires administered to patients at the Medical Outpatient Department (MOPD), Lagos State University Teaching Hospital (LASUTH).
- Entered and organized data using Microsoft Excel and analysed the data using SPSS.

Developed practical skills in research methodology, data management, quantitative analysis and scientific reporting.
