## PROFESSIONAL SUMMARY

---

An Experienced Mechanical Engineer with a bias for power systems who is capable of carrying out preventive maintenance, predictive maintenance as well as corrective maintenance whilst preventing major breakdown by undertaking routine check-ups, replacing worn out parts with new parts, identifying mechanical faults, maintaining correct fluid levels, temperature and pressure of machines, and checking for wear and tear of parts.

## KEY SKILLS

---

- Knowledge of safety awareness
- Operational knowledge of machinery and the ability to work in shifts
- Capable of using MS Office applications including Excel and Word
- Sound written and oral communication skills

## WORK EXPERIENCE

---

### **Senior Operation & Maintenance Engineer • Tofa Ltd (Nestle Factory Site, Abuja)**

*(March 2023- present)*

Key Responsibilities:

- Lead the maintenance services on base load gas power plants.
- Synchronize power plants (gas and diesel) to meet load demand of factory equipment.
- Coordinate with plant manager by ramping up or reducing capacities during peak demands and low demands.
- Implement site energy management policies such as decarbonisation, DSM and increasing capacity credit when possible.
- Minimize downtime and opex.

### **Operation & Maintenance Engineer •Verteville Energy Company.**

*(February 2022- February 2023)*

Key Responsibilities:

- Carried out maintenance services on 1.5MW gas power plant, including E-30, E-40 and E-60.
- Synchronized power plants (gas and diesel) to meet load demand of factory equipment.
- Ensured the LT and HT cooling circuit pumps, ventilation fans, radiator fans, batteries were in a good state of repair through periodic current taking and physical inspection.

### **Mechanical Engineer (Team Support) • Biswal Limited**

*(November 2019- December 2021)*

#### Key Responsibilities:

- Conducted routine and scheduled maintenance services such as oil changes, lubrications and tune-ups.
- Communicated effectively with customers on future problems and repairs that might need to be addressed.
- Reviewed work orders and discussed them with supervisors.
- Completed routine maintenance to prevent future breakdowns.
- Interfaced with management and colleagues in a professional manner.
- Upheld top-quality workmanship and excellent customer service.

#### **Trainee Mechanical Engineer • Shongai Packaging Industry Limited**

*(April 2019-November 2019)*

#### Key Responsibilities:

- Performed schedule preventative maintenance services on all mechanical systems equipment and components.
- Replaced worn components before mechanical breakdowns occur.
- Maintained preventative maintenance logs on all equipment and systems.
- Developed a parts replacement file containing all components of all systems that are presently in use with all necessary data for development of an inventory of critical parts and an instant record of sources for immediate ordering without delay.
- Maintained and took periodic inventory of parts, materials, and components as directed.
- Increased production rate to the maximum possible percentage by decreasing machine breakdowns through thorough preventive maintenance measures.

#### **Personal Assistant to the Principal (NYSC) • Community Secondary School (SNR), Port Harcourt, Rivers State**

*(2018-2019)*

#### Key Responsibilities:

- Provided administrative support to the principal and served as Personal Assistant Simultaneously.

#### **Mechanical Trainee (S.I.W.E.S) • Multi-Dimensional BALTEC Engineering Ltd.**

*(2014 - 2015)*

#### Key Responsibilities:

- Responsible for preparation of the coupling of armaflex, copper pipe and wire cable ready for lying at the appropriate location.
- Ensured the requirements of the above preparation are appropriate for the coupling.

## **EDUCATION**

---

#### **Ladoke Akintola University of Technology, Ogbomoso, Oyo**

2010 - 2016

Mechanical Engineering, (B.TECH)

## **COURSES**

---

Occupation Health Safety Environment and Security (H.S.E 1, 2, & 3)

Effective Consults Resources and Development/National Industrial Safety Council of Nigeria

2018

Occupational and Environmental Safety and Health Course (level 1, 2, 3)  
(World Safety Organization)  
2018

**PROFESSIONAL BODY**

Approved Member of Nigerian Institution of Facilities Engineering and  
Management (NIFEngM).
