Lagos, Nigeria

CAREER OBJECTIVE

Hardworking ambitious and motivated electrical engineer, ready to be a team player and learn as much as I can to imbibe more Technical skills, and in the growth of the organization and the engineering world, I am a passionate Electrical Engineer with a strong foundation in Power and Electrical Systems. With hands on experience in installing and implementing electrical circuits. I have successfully contributed to project in electrical fields. I find myself, I am committed to advancing and improving in any electrical environment.

SKILLS AND CORE COMPETENCIES

- | | | |
|--|----------------------------------|---|
| ▪ Protection and Coordinating Studies | ▪ Diagnosis of electrical fault | ▪ Preventive and corrective maintenance |
| ▪ Testing of electrical instrument | ▪ Use of safety instruments | ▪ Internship Experiences |
| ▪ Teamwork and Collaboration | ▪ Time Management | ▪ Excellent communication skill |
| ▪ Continuous learning and adaptability | ▪ Ability to work under pressure | ▪ Testing and commissioning |

EXPERIENCE

INTERN – August 18 Electrical and Solar installation and services 2021-2022

- Assisted in the installation of **electrical systems** and **appliances**.
- Performed routine maintenances and testing.
- Assisted in the assembly and servicing of **control panel, distribution boards**.
- Helped with **solar inverter installation** tasks.
- Documented daily tasks and reported progress to my supervisor.

SITE TECHNICAL REPRESENTATIVE – Level 3 innovations 2023-2024

- Supervised day today site **electrical** and **technical activities** to ensure compliance with **project specifications** and **standards**.
- Interpreted **engineering drawings**.
- Coordinated installation of electrical systems including **wing, conduit's , distribution boards, lighting and power cabling**.
- Conducted routine inspections to monitor **workmanship quality**.
- Prepared daily/weekly site reports, mental usage records and progress documentation for management.
- Supervised electrical installations in residential/commercial buildings.

ACADEMIC QUALIFICATIONS

- | | |
|---|-------------|
| ▪ Higher National Diploma, Electrical/Electronic Engineering (Power option)- Osun State Polytechnic Iree- (Lower Credit) | 2024 |
| ▪ National Diploma, Electrical/Electronic Engineering- Osun State Polytechnic Iree- (Lower Credit) | 2021 |

RESEARCH, TRAINING AND CERTIFICATION

- | | |
|---|-------------|
| ▪ Installation and performance Analysis of a 5kw solar powered inverter - | 2024 |
| ▪ Installation of Closed Circuit Television (CCTV) - | 2021 |

PERSONAL INTEREST

- | | |
|---|---|
| ▪ Power distribution systems and operations | ▪ Technical fields operations |
| ▪ Electrical safety, protection systems | ▪ Load forecasting and system reliability |
| ▪ Smart metering, and customer energy | ▪ Network maintenance |
