Dasola Adebowale

Product Designer

Profile

Product designer with experience designing data-driven and consumer-facing products. Strong focus on UX clarity, human centered design, and simplifying complex systems. Experienced working within cross-functional teams and real-world product environments.

Soft skills

Communication & clarity
Emotional intelligence
Time management
Collaboration
Creative problem solving

Work experience

Emerj LLC

2025– Present

Product designer

Contributed to the design of Sitelytics, worked across core product experience and user acquisition flows. Collaborated closely with developers and marketers to align product experience with business goals.

HNG Tech

2025– 2025

Product design intern

Worked on multiple product design tasks under tight timelines, strengthening problem-solving and execution skills. Improved ability to receive feedback, iterate quickly, and deliver quality designs.

Xplore Design Studio

2025– 2025

Product design intern

Gained hands-on experience designing real-world mobile products under guidance. Translated business requirements into clear, usable interfaces.
