Dear Hiring Manager,

APPLICATION FOR SOC ANALYST / CYBERSECURITY POSITION

I am writing to express my interest in a SOC Analyst or entry-level Cybersecurity position within your organization.

I am an enthusiastic and detail-oriented IT professional with experience in ICT support and a strong interest in cybersecurity, network security, threat detection, and incident response.

I recently completed the Cybersecurity: From Beginner to Expert course on Udemy and have gained practical experience using cybersecurity tools such as Wireshark, Nmap, and Kali Linux. Through hands-on security labs and personal projects, I have developed foundational skills in network traffic analysis, port scanning, identifying suspicious network activities, and documenting security findings.

I am passionate about understanding cyber threats, investigating security incidents, and protecting organizational systems against potential attacks. I am committed to continuous learning and developing my technical expertise in Security Operations Center (SOC) environments.

I would welcome the opportunity to contribute my analytical thinking, problem-solving abilities, and technical knowledge to your security team while gaining valuable professional experience.

Thank you for considering my application. I look forward to the opportunity to discuss how my skills and enthusiasm can contribute to your organization.

Yours faithfully,
Genesis Finaty

GENESIS FINATY

Objective

Motivated and detail-oriented IT professional with experience in technical support, network troubleshooting, and digital technology. Equipped with foundational cybersecurity knowledge and hands-on experience using Wireshark, Nmap, and Kali Linux. Seeking an opportunity to apply my technical, analytical, and problem-solving skills while contributing to organizational security, operational efficiency, and continuous professional growth.

Experience

- **Faith mediplex hospital** August 24 2025 - November 5 2025
  I.T personnel
  Provided technical support for the hospital computer systems, maintained IT equipment and network connectivity, troubleshoot hardware and software issues, assisted staff with technical challenges.

- **Joker Hotel and Suites** April 23 2026 - Till date
  Social media manager

  Managed social media accounts across Facebook, Instagram, TikTok, and other platforms. Created engaging content, designed promotional graphics, developed marketing strategies, monitored audience engagement, and promoted brand awareness to increase online visibility and customer interaction.

Education

- **Delta state university Abraka** 2024
  Animal Science/ Bachelor of Agriculture
  Second class upper Division (2:1)

- **Udemy (online learning platform)** 2026
  Cybersecurity: From beginner to expert
  Completed

Skills

- Network Traffic Analysis (wireshark) Network scanning (map). cybersecurity fundamentals.basic threat Detection and investigation
- Linux fundamentals (Kali Linux). network Troubleshooting.computer hardware and software troubleshooting.
- Content creation and digital marketing
- Problem solving. Analytical Thinking.team work and Collaboration.Time management

Projects

- **VPN security and Network Traffic Analysis**
  Conducted a practical security demonstration comparing network traffic with and without Proton VPN. Used Wireshark to analyze DNS visibility, encrypted WireGuard traffic, and how VPN technology helps protect network communications from local network monitoring.
- **Network Traffic Analysis Using Wireshark**
  Captured and analyzed network traffic using Wireshark to examine DNS queries, TCP connections, and encrypted communications. Investigated network activity to understand traffic patterns, identify potential security concerns, and develop practical SOC analysis skills.
- **Network scanning and Security Assessment Using Nmap**
  Conducted practical network scanning using Nmap on Kali Linux to identify active ports, examine network services, and assess potential security vulnerabilities. Documented findings and demonstrated fundamental network reconnaissance and security assessment techniques.
