

EMMANUEL GBENGA ODERINDE

Electrical Engineer and Maintenance Specialist

| +2348062802123 | [eoderinde009@yahoo.com](mailto:oderinde009@yahoo.com) |

PROFESSIONAL SUMMARY

Dependable Maintenance Technician and Electrical Engineer, recognized for consistent productivity and solutions-oriented mindset in challenging environment. Exhibiting exemplary work ethics and willingness to learn new processes and techniques that drives team success and operational goals.

SKILLS

Technical and Operational

- Troubleshooting & Diagnostics: Electrical systems, and mechanical failure analysis.
- Quality Assurance: Ensuring compliance with safety standards and operational codes.
- Preventative Maintenance: Planning and executing routine inspections to minimize downtime.

Communication and Relations

- Client and Vendor Relations: Managing external and internal partnerships.
- Negotiation: Handling contracts and service level agreements (SLAs).
- Customer Service: Translating complex technical issues for non-technical stakeholders.

Leadership and Strategy

- Team Leadership: Mentoring junior technicians and coordinating workflow.
- Strategic Planning: Resource allocation and long-term maintenance scheduling.

EXPERIENCE

ELECTRIC VEHICLE TECHNICIAN

ESTYMOL OIL SERVICES LTD, Ikeja GRA Lagos. | May, 2023 – Till date |

- Diagnostic Optimization: Engineered and implemented standardized diagnostic procedures, improving fault-finding accuracy and reducing vehicle downtime.
- Infrastructure Management: Spearheaded the preventative maintenance program for high-voltage charging dispensers, ensuring 99% uptime and peak operational efficiency.
- Technical Troubleshooting: Rapidly diagnose and resolve complex electrical faults, including charging communication errors, hardware malfunctions issues.

- Operational Readiness: Coordinate daily charging logistics for the EV fleet to ensure 100% deployment readiness for all vehicles.

ATM TECHNICIAN, REPAIR AND MAINTENANCE DEPARTMENT.
Ark Technologies Limited, Oshodi, Lagos. |2019 – 2022|

- Engineering Leadership: Directed a high-performing team engineers, overseeing the maintenance and repair of a large-scale ATM network to meet strict performance KPIs.
- Technical Mentorship: Mentored and coached junior technicians, implementing a structured training program that improved team technical competency and repair speed.
- Operations & Process Improvement: Developed and deployed strategic maintenance workflows that increased overall team productivity and fleet profitability.
- Remote & On-Site Support: Provided expert-level technical assistance—both physically and via remote diagnostics—to resolve complex mechanical and electrical ATM failures.
- Stakeholder Management: Professionally resolved high-level client complaints and service objections, maintaining first-class service standard

ATM TECHNICIAN AND MAINTENANCE ENGINEER Inlaks Nigeria
Inlaks Nigeria, Victoria Island, Lagos. |2013 -2019|

- Technical Refurbishment: Expertly repaired, serviced, and refurbished complex ATM hardware components, extending equipment lifespans and reducing replacement costs.
- Quality Control: Performed rigorous post-repair testing on machinery and electrical components to ensure 100% operational efficiency before redeployment.
- Technical Training: Standardized repair procedures and "best practices" for onboarding new technical staff, significantly reducing average turnaround times (TAT).
- Remote Diagnostics: Provided high-level remote troubleshooting support to field engineers, resolving technical hurdles and maintaining peak network productivity.
- SLA Compliance: Guaranteed the prompt and accurate completion of all service requests, consistently meeting strict Service Level Agreements (SLAs) for banking clients.

EDUCATION

2009 – 2011	HND [Higher National Diploma] in Electrical/Electronic Engineering Lagos State Polytechnics, Lagos
2004 – 2006	OND [Ordinary National Diploma] in Electrical/Electronic Engineering Moshood Abiola Polytechnic, Ojeere, Abeokuta
