

IDOWU FATHIU AYOMIDE

Lagos, Nigeria | 08112039464 | idowufathiu4@gmail.com

PROFESSIONAL SUMMARY

Disciplined and community-oriented graduate with demonstrated leadership across large-scale event coordination, team management, and public health outreach. Elected President of a departmental association overseeing 10 executive members and 200+ students, with direct experience managing budgets of up to ₦3.9 million. Active sportsman with competitive football experience and a published researcher who completed work under strict protocols at a federal biosafety agency. Currently completing the National Youth Service Corps with active involvement in community development initiatives. Seeking to contribute leadership, discipline, and service readiness to a career within the Nigerian Armed Forces, paramilitary, or civil service.

LEADERSHIP & TEAM MANAGEMENT

President | National Association of Microbiology Students (NAMS), KWASU Chapter *Dec 2023 – Dec 2024*

- Led 10-member executive committee responsible for coordinating all departmental student activities, events, and resource allocation across 800+ students in four year groups.
- Planned, budgeted, and delivered NAMS Week, a week-long programme of seminars, cultural events, a sports day, and an award dinner night attended by over 200 students and faculty, with a total budget of ₦3.9 million.
- Facilitated the acquisition of new laboratory equipment for the department, improving practical learning resources for current and future students.
- Recognised as Department President of the Year for leadership impact across the academic session.

Event Organiser | American Society of Microbiology (ASM), Student Chapter, KWASU *Jun – Jul 2024*

- Organised a public health sensitisation campaign on cholera prevention during an active outbreak in the host community near Malete.
- Mobilised a team of 50 volunteers to deliver hygiene education to approximately 100 primary school pupils, covering sanitation, food safety, and disease prevention practices.
- Coordinated end-to-end event logistics including speaker engagement, venue setup, and community outreach planning.

Public Relations Officer | Independent Students Electoral Committee (ISEC), KWASU *2022*

- Managed voter mobilisation campaigns across campus, rallying students to participate in faculty-wide elections.
- Ensured transparent communication throughout the electoral process, contributing to a credible and dispute-free outcome.

Member, 2nd Assembly | Faculty of Science Students' Association (FASSA), KWASU *Dec 2022 – Dec 2023*

- Contributed to faculty-level student governance, supporting academic development initiatives and student welfare programmes.

COMMUNITY SERVICE & DEVELOPMENT

Youth Corps Member | National Youth Service Corps (NYSC) *2025 – Present*

- Participating in the Community Development Service (CDS) programme under the Local Government Development group, executing community improvement projects on a weekly basis.
- Conducted community environmental cleaning exercises, organising waste collection and disposal operations in coordination with local waste management authorities.
- Carried out a data enumeration exercise across multiple businesses in the local government area, collecting operational data, addresses, and contact information and uploading records to the government's digital portal.

Academic Tutor (Voluntary) | Department of Microbiology, KWASU *2023 – 2024*

- Organised and delivered tutorials for final-year students, supporting comprehension of complex academic material and contributing to improved performance across the cohort.

WORK EXPERIENCE

Corps Member (Primary Assignment) | AfriGlobal Medicare Limited, Lagos 2025 – Present

- Supporting day-to-day operations across laboratory and facilities departments at a healthcare facility during NYSC primary assignment.
- Assisting with inventory documentation, including recording equipment needs, coordinating item requests with procurement, and tracking maintenance requirements across clinical departments.

SIWES Intern | National Biosafety Management Agency (NBMA), Abuja Jun – Nov 2023

- Completed a 6-month industrial attachment at a federal government agency, working within a structured team under direct supervision of senior laboratory officers.
- Performed sample collection and preparation, DNA extraction, PCR amplification, and gel electrophoresis—following strict laboratory protocols and delivering quality-assured outputs for advanced research.
- Collaborated with interns from multiple institutions, demonstrating the ability to work effectively in cross-functional teams within a formal institutional environment.

SPORTS & PHYSICAL FITNESS

- Football: Represented the Department of Microbiology (NAMS team) in inter-departmental competitions at KWASU and participated in informal league tournaments, winning medals in team events.
- Field Hockey: Played recreationally in local community games in Osun, Oyo, Ondo, Ogun and Lagos States.
- Maintains a regular weekly fitness and training routine to sustain physical readiness.

EDUCATION

Bachelor of Science (B.Sc) in Microbiology 2024
Kwara State University, Malete

Published Research: “Bioremediation of Pharmaceutical Effluent using Bacterial Consortium” (November 2024). Presented findings to a panel of academic experts and published results demonstrating significant pollutant reduction and improved water quality outcomes.
