Professional Summary

Driven and highly analytical First-Class Graduate in Agricultural Economics and Farm Management. Demonstrates a strong academic foundation in agribusiness value chains, economic modeling, and data-driven agricultural research. Possesses advanced problem-solving capabilities, field survey experience, and data interpretation skills. Proven ability to balance rigorous academic research with hands-on agricultural field operations.

EDUCATION

Bachelor of Agriculture (B.Agric.)	July 2026
Agricultural Economics and Farm Management	
Federal University of Agriculture, Abeokuta (FUNAAB)	
CGPA	4.51-/5.0

AWARD

Certificate of Outstanding Academic Performance	2026
---	------

RESEARCH EXPERIENCE

Undergraduate Research Project

Title: Effects of Productivity on Food Security among Fish Farming Households in Odogbolu Local Government Area, Ogun State, Nigeria.

- Conducted comprehensive quantitative economic analysis on productivity metrics and food security indexes across aquaculture households.
- Formulated data-driven recommendations on how input optimization and farm efficiency can improve food security and rural livelihoods.
- Developed strong capabilities in field survey design, data collection, and statistical data cleaning and interpretation using Excel and SPSS

EXPERIENCE

University Farm Practical Year (FPY) – 400 Level

Federal University of Agriculture, Abeokuta (FUNAAB)	2024-2025
---	-----------

- Participated in an intensive, holistic 12-month program exploring all operational aspects of commercial agriculture, spanning both livestock and crop management.
- Crop Production: Managed full crop lifecycles for arable and plantation crops, including land preparation, nursing, planting, input/fertilizer application, and harvest yield recording.

- **Livestock Management:** Assisted in daily operations for various livestock units (poultry, piggery, small ruminants, and aquaculture), overseeing feeding regimes, biosecurity tracking, and health compliance.

SKILLS

Agribusiness Data Analysis & Economic Modeling, Agricultural Supply Chain & Value Chain Assessment, Quantitative & Qualitative Market Research, Farm Budgeting, Analysis Tools (Microsoft Excel), Farm Production Operations (Crop & Livestock Management).
