GENESIS FINATY

SOC ANALYST | CYBERSECURITY

Benin City, Edo State, Nigeria | +234 901 569 6758 | finatyg@gmail.com
GitHub: github.com/finatyg-code

PROFESSIONAL SUMMARY

Entry-level cybersecurity professional with practical experience in network traffic analysis, network scanning, and security investigation exercises using Wireshark, Nmap, and Kali Linux. Background in ICT support, computer troubleshooting, and network connectivity. Completed foundational cybersecurity training and built hands-on projects in packet analysis, VPN traffic comparison, and network reconnaissance. Seeking a junior SOC Analyst or cybersecurity role focused on security monitoring and incident investigation.

TECHNICAL SKILLS

Security & Networking: Network traffic analysis, DNS queries, TCP/IP fundamentals, packet inspection, network scanning, basic threat investigation

Tools & Systems: Wireshark, Nmap, Kali Linux, Windows, Proton VPN

IT & Professional: Hardware/software troubleshooting, network troubleshooting, technical documentation, analytical thinking, problem-solving

CYBERSECURITY PROJECTS

Network Traffic Analysis Using Wireshark

- Captured and examined DNS queries, TCP connections, and encrypted traffic to understand network behavior and identify potentially suspicious activity.
- Used Wireshark display filters to investigate traffic patterns and document observations.

VPN Security and Network Traffic Comparison

- Compared packet captures before and after connecting to Proton VPN to examine DNS visibility and encrypted WireGuard tunnel traffic.
- Documented how a VPN changes what observers on a local network can see.

Network Scanning Using Nmap

- Performed authorized scans in a Kali Linux practice environment to inspect selected ports and service availability.
- Recorded results, including closed ports on a localhost test, and explained basic reconnaissance findings.

PROFESSIONAL EXPERIENCE

IT Support Personnel | Faith Mediplex Hospital | Aug 2025 - Nov 2025

- Provided day-to-day support for computer systems, IT equipment, and network connectivity.
- Troubleshot hardware and software issues and assisted hospital staff with technical problems.

Social Media Manager | Joker Hotel and Suites | Apr 2026 - Present

- Managed social media platforms, created digital content, and monitored audience engagement to support online visibility.

EDUCATION

Bachelor of Agriculture (Animal Science) | Delta State University, Abraka | 2024

Second Class Upper Division (2:1)

CERTIFICATIONS & TRAINING

Cybersecurity: From Beginner to Expert | Udemy | Completed 2026
