PROFESSIONAL SUMMARY

Innovative and multi-disciplinary **Graphic & UI/UX Designer** with a strong background in **Computer Engineering** and interactive design. Proven expertise in transforming complex concepts into clean, high-impact visual identities, digital marketing assets, and seamless user interfaces. Highly proficient in **Figma**, typography, and layout principles, with a unique technical edge in frontend technologies (**HTML, CSS, Tailwind CSS**) that allow for frictionless collaboration with development teams. Adept at managing projects from ideation to final pixel-perfect asset delivery.

CORE COMPETENCIES & SKILLS

- **Visual Design:** Brand Identity & Logo Design, Typography, Vector Illustration, Marketing Collateral, Layout & Print Design.
- **UI/UX & Product Design:** Wireframing, High-Fidelity Prototyping, User Workflows, Component Libraries, Design Systems.
- **Design Tools:** Figma, Adobe Photoshop, Adobe Illustrator, Canva.
- **Technical / Interactive Design:** HTML5, CSS3, Tailwind CSS, Bootstrap, JavaScript (Basic UI Animation).
- **Soft Skills:** Resourceful Problem Solving, Technical Mentorship, High-Impact Communication, Cross-functional Collaboration.

PROFESSIONAL EXPERIENCE

UI/UX Designer & Technical Instructor

Loctech IT Training Institute – Port Harcourt, Nigeria | April 2022 – May 2023

- Designed the user interface (UI) and user flows (UX) for internal corporate software, including the **Loctech Attendance Application**.

- Created all digital marketing materials, social media carousels, and promotional graphics, accelerating student enrollment numbers through targeted physical and digital campaigns.
- Instructed and mentored over 50+ students in UI/UX Design, Figma workflow optimizations, typography hierarchies, and web layout best practices.
- Collaborated tightly with engineering teams to ensure design assets were perfectly prepared, exported, and aligned with responsive CSS frameworks.

IEEE Webmaster & Visual Lead

IEEE FUTO Student Branch | February 2018 – 2020

- Spearheaded the visual rebranding of the student branch portal, maintaining strict adherence to brand guidelines.
- Created promotional graphics, banners, and digital flyers for multiple university-wide tech events and workshops.
- Optimized web layouts using frontend code to ensure high-fidelity translation of visual designs into live web pages.

Design & Engineering Intern

NNPC Satellite Depot – Ejigbo, Lagos | 2019

- Utilized rigorous logical frameworks to assist in visual system schematic mapping and analytical project documentation within the engineering wing.

FEATURED DESIGN PROJECTS

Dorex Mobile Application (UI/UX Case Study)

Lead UI/UX Designer | Dec 2022 – Feb 2023

- Designed a comprehensive mobile user interface from scratch, including wireframing, mood boards, and interactive prototypes using design principles optimized for mobile frameworks.
- Iterated on high-fidelity layouts based on usability feedback to ensure clean navigation states and modern aesthetics.
- *Interactive Prototype Link:* [Dorex Link](#)

Loctech Attendance App Ecosystem

Product Designer | July 2022 – Oct 2022

- Designed the responsive interface layouts for both desktop and mobile views.
- Built and maintained a modular component design system (buttons, input fields, tables) to allow rapid frontend scaling.

Nickzom Calculator App Real Estate Layouts

Contributor | 2017

- Collaborated on optimizing the internal algorithmic execution parameters, formatting output structures for a clean layout across web and mobile platforms.

EDUCATION & CREDENTIALS

- **B.Eng. in Electrical/Electronic and Computer Engineering**
Federal University of Technology Owerri (FUTO), Imo State | 2015 – 2021
- **IEEE FUTO SB Organized Skill-Up Program** (Web Layout Certification) | *July 2016*

LEADERSHIP & EXTRACURRICULARS

- **Winner**, Article Writing & Communication Competition – *SUG, FUTO, 2018*
- **Leader**, Group 7 Junior Achievers Nigeria (JAN) – *FUTO, 2018*
