Company: Digital Fortress: <https://digitalfortressltd.com/>

About Me

I am a dedicated Frontend Developer with over **1 year of professional experience**, having built **40+ projects**, including **live client websites**, **AI tools**, and **developer utilities**. I specialize in crafting **responsive, high-performance web applications** and thrive in solving complex problems while continuously improving my skills.

I approach every project with **attention to detail, creativity, and perseverance**, ensuring reliable, polished, and user-friendly solutions. My goal is to **deliver impact from day one** and grow alongside the teams I work with.

Why You Should Hire Me

- Delivered multiple **live client projects** and production-ready applications.
 - Skilled in **frontend development with backend integration** (Supabase, APIs).
 - Experienced in **team collaboration, Git workflows, and version control**.
 - Open-source contributor with experience in **maintaining clean, scalable code**.
 - Committed to **learning, problem-solving, and delivering high-quality solutions**.
-

Professional Experience

Frontend Developer — Digital Fortress: <https://digitalfortressltd.com/> | 2025 – Present

- Developed **production-ready frontend applications** for clients and internal projects.
- Built **AI-powered applications, developer utilities, and responsive websites**.

- Collaborated in **team workflows using Git, component-based design, and deployment pipelines.**
 - Deployed multiple projects with **Vercel**, ensuring responsive and accessible interfaces.
 - Designed reusable UI/UX components, improving usability and maintainability across projects.
-

Selected Projects (Live Demo URLs)
