

SULAIMAN .A. MUKARRAM

PRODUCT DESIGNER / UIUX Designer

Jaremade64@gmail.com +2348074988025 Lagos, Nigeria [LinkedIn](#)

I am a User-Centered Product and UI/UX Designer passionate about building thoughtful, human-centered digital products through research driven design, intuitive interfaces, and seamless user experiences. Read my case studies here. A Product and Graphics Designer with a strong foundation in visual design and a growing focus on user-centered digital products. I have over 7 years of experience in graphic design, working on branding, marketing assets, and visual communication across various projects. For the past 2 years, I have focused on product design, creating intuitive and engaging digital experiences that combine visual clarity with thoughtful UX. I hold a BSc from Bestower International University and an ND from Lagos State Polytechnic, with a certificate in Mass Communication and Media Studies, which complements my design practice with strong communication and storytelling skills.

- **Vaccine Management Web Application (2025)**
- **HafsahPlace (2026) - Live**
- **Champs Heaven Interior (2026)**

Hafsah Palace – Luxury Fashion eCommerce Website

Hafsah Palace is a luxury fashion eCommerce website designed to deliver a seamless and elegant online shopping experience. As the UI/UX Designer, I designed responsive interfaces, created user flows and high-fidelity prototypes in Figma, and built a consistent design system to ensure a cohesive user experience.

The platform includes intuitive product browsing, detailed product pages, a streamlined shopping cart, and a secure checkout flow. This project showcases my ability to design user-centered eCommerce experiences that combine visual appeal, usability, and business goals.

Vaccine Management Web Application (Dec - 2025)

Designed a user-friendly web application for scheduling vaccinations and tracking immunization Figma. accessibility.

Created wireframes, interactive prototypes, and high-fidelity designs using
Improved navigation flow and visual clarity to enhance user trust

Kwikvest Mobile App (Dec - 2025)

Designed the UI/UX app for a savings app that allows undergraduate students to save for the future. Conducted user research involving students to identify pain points and expectations. Translated research insights into intuitive fintech mobile applications.
