

NAYA OLUWASEUNFUNMI OLUMIDE

ELECTRICAL ENGINEER | FIELD ENGINEERING | SOLAR & SMART-HOME SYSTEMS

07017638394 • Oluwaseunfunmi@gmail.com • Ikorodu, Lagos

PROFESSIONAL PROFILE

Dedicated and technically minded Electrical and Solar Energy professional with practical experience in electrical installation, maintenance, troubleshooting, solar system installation, and smart-home solutions. Experienced in supporting system setup and commissioning, inverter and battery configuration, electrical checks, fault diagnosis, and safe installation practices. Seeking to contribute these hands-on technical skills to Luxsit Integration in an electrical field engineering role while continuing to develop across integrated technical systems.

CORE TECHNICAL SKILLS

- Electrical installation, maintenance & troubleshooting
- Inverter and battery system configuration
- Electrical fault diagnosis and technical problem solving
- Smart-home solutions and technical support
- Solar system installation, setup & commissioning
- PV panel configuration and solar system support
- Electrical safety practices and safe installation

PROFESSIONAL EXPERIENCE

Ritzman Smarthome — Solar Engineer

March 2026 – August 2026

- Supported solar system installation, setup and commissioning.
- Assisted with solar, inverter and battery system configuration and troubleshooting.
- Performed electrical checks and contributed to safe, reliable system installations.

ZONETECH — Electrical Technician

November 2025 – March 2026

- Assisted with electrical installation, maintenance and troubleshooting.
- Worked with electrical components and wiring while following safety practices.
- Supported technical teams in diagnosing and resolving electrical faults.

EDUCATION

Bachelor of Engineering (B.Eng.) — Lagos State University of Science and Technology (LASUSTECH)

2021 – 2026

Secondary School Education — Maya Community Senior Grammar School

Primary Education — African Bethel Primary School

TRAINING / ADDITIONAL EXPERIENCE

Golden Vision — 2019–2021

CAREER INTEREST

Electrical field engineering • Electrical installation & maintenance • Solar and energy systems • Smart-home and integrated technical systems
