

OLADIPUPO SEUNAYO BLESSING

PHARMACY ASSISTANT | PHARMACY SUPPORT | COMMUNITY HEALTH

Ondo State, Nigeria | 07050623778 | oladipuposeunayo64@gmail.com

PROFESSIONAL PROFILE

Community Health graduate with three years of apprenticeship experience in a maternity home and patient medicine vendor, supporting medicine dispensing, customer counselling, and auxiliary nursing care. Skilled in attending to customers, explaining medicine-use instructions clearly, and communicating respectfully within the scope of training and workplace guidance. Clinical postings at Ifaki-Ekiti Comprehensive Health Centre and Ilawe General Hospital strengthened her understanding of patient safety, vital-sign monitoring, infection prevention, wound care, antenatal and postnatal care, and immunisation support. Patient-focused, organised, and discreet, with a firm commitment to accurate service, responsible medicine handling, and referring clinical questions to an appropriately qualified professional. Seeking a pharmacy assistant or pharmacy support position.

- Patient communication and counselling support
- Stock arrangement and product organisation
- Basic patient care and health support
- Infection prevention and equipment sterilisation
- Antenatal and postnatal care exposure
- Health records and documentation
- Referral of clinical questions to qualified staff

PROFESSIONAL EXPERIENCE

OLAOLUWA MATERNITY HOME AND PATIENT MEDICINE VENDOR, OKEIGBO, ONDO STATE

Apprentice (Auxiliary Nursing and Pharmacy Support) | 2020–2023

Dispensing Support

- Assisted with the dispensing of medicines under the guidance of supervising personnel, checking that the product, strength, and quantity matched the request or prescription before it was handed over.
- Read and followed medicine labels and dispensing instructions carefully, taking care to avoid errors and confirming doubtful items with a supervisor before release.
- Prepared, counted, and packaged medicines for customers and patients, and kept the dispensing area clean, orderly, and ready for use.

Medicine Description and Counselling Support

- Described medicines to customers in simple language, including the name, purpose, and routine use of common products, as directed by supervising staff.
- Explained dosage instructions, timing, and administration advice to customers, and reminded them to complete prescribed courses and to store medicines properly.
- Advised customers on general medicine safety, such as reading labels, observing expiry dates, and reporting unusual reactions, and referred any question requiring clinical judgement to qualified healthcare personnel.

Customer Care and Communication

- Attended to customers and patients politely and patiently, listened to their needs, and responded with clear and respectful communication.

- Dealt with enquiries from mothers, caregivers, and walk-in patients in a calm and reassuring manner, including those who needed extra explanation.
- Protected customer and patient privacy and handled personal and health information with discretion.

Stock, Records, and Auxiliary Nursing Duties

- Organised and arranged pharmacy products, checked stock levels and expiry dates, and reported shortages and expired items to supervisors.
- Supported basic auxiliary nursing care in the maternity home, including assisting patients and helping the nursing team with routine tasks.
- Maintained accurate records and followed workplace procedures, developing a strong understanding of accuracy, safe medicine handling, and teamwork.

IFAKI-EKITI COMPREHENSIVE HEALTH CENTRE, EKITI STATE

Clinical Posting | 2025

- Supported routine clinical activities and basic medical tests under qualified healthcare supervision.
- Measured and recorded patients' vital signs as part of routine clinical monitoring.
- Gained practical exposure to antenatal care (ANC), including pregnancy booking procedures.
- Observed and supported labour and delivery activities under supervision, according to assigned duties.
- Learned about postnatal care and routine monitoring needs of mothers and newborns.
- Assisted with immunisation activities and routine vaccination services under supervision.
- Developed practical knowledge of immunisation schedules and childhood disease-prevention practices.

ILAWE GENERAL HOSPITAL, EKITI STATE

Clinical Posting | 2024

- Supported patient care and routine treatment procedures under the guidance of healthcare professionals.
- Learned and practised appropriate sterilisation of medical equipment.
- Gained supervised hands-on experience in wound care and dressing.
- Developed practical understanding of hospital routines, patient safety, and infection-prevention practices.
- Worked alongside healthcare personnel and followed instructions relevant to assigned clinical duties.
