

OPALEYE OLUWAFERANMI

Lagos, Nigeria | 08056830100 | oluwaferanmiopaleye1@gmail.com

PROFESSIONAL SUMMARY

I have experience in graphic design, and I'm currently learning more about cybersecurity. I also teach these skills at Systems Business School and have experience with CCTV and solar inverter installation. I enjoy solving problems, learning new things, and using both my technical and creative skills to get things done.

SKILLS

Cybersecurity fundamentals and vulnerability assessment • Log analysis and threat detection • Security awareness and tutoring • Logo, brand, and marketing design • Legal and technical document awareness • CCTV and solar inverter installation • System diagnostics and troubleshooting

EXPERIENCE

CYBERSECURITY STUDENT | 02/2023 – Present

Remote – Nigeria

- Practise vulnerability assessment and identify potential security risks.
- Study firewall concepts, encryption, and network security measures.
- Contribute to incident-response planning and analyse security logs for suspicious activity.
- Deliver security-awareness sessions and develop practical cybersecurity knowledge.

CYBERSECURITY AND GRAPHIC DESIGN TUTOR

Systems Business School – Nigeria

- Teach learners foundational cybersecurity concepts and safe digital practices and more.
- Guide students through graphic design principles, visual communication, and design workflows.
- Support practical learning, answer questions, and help learners build technical and creative skills.

FREELANCE GRAPHIC DESIGNER | 08/2019 – Present

Liberty Best Image – Nigeria

- Design custom logos, branding materials, and marketing visuals for clients.
- Develop visual concepts in collaboration with clients and refine designs to meet project needs.
- Manage multiple design projects and maintain client relationships.
- Support print-production work involving banners, stickers, and related materials.

CCTV CAMERA AND SOLAR INVERTER INSTALLATION

Nigeria

- Install CCTV cameras and solar inverter systems for residential and commercial clients.
- Conduct system diagnostics and troubleshoot installation issues.
- Explain installation procedures and system use to clients or staff.
- Manage installation equipment and materials.

EDUCATION

University of Lagos — Bachelor's degree studies in Applied Mathematics

Applied Mathematics | 11/2023 – Present

CERTIFICATION

AWS Cloud Bootcamp — 5 CPE credits, 5 hours of training

Training dates: 22–26 September 2026 | Issued: 26 September 2026

Certificate No.: TC-092026-25VPP86-44275
