PROFESSIONAL SUMMARY

Certified Project & Facility Management Professional (CIPFM) with over 4 years of experience managing facility operations, inventory control, and staff coordination across hospitality, supply chain, and industrial sectors. Proven track record leading multi-unit restaurant and hotel operations, overseeing facility maintenance, managing operational budgets, and upholding strict safety and quality assurance standards. Combines a technical foundation in Applied Geophysics with strategic leadership in budget control, team supervision, and guest service optimization.

CORE COMPETENCIES

Operations & Facility Management: Hotel & Restaurant Operations, Facility Maintenance, Asset Longevity, Quality Assurance (QA)
Inventory & Financial Control: Operational Budgeting, Cost Control, Resource Allocation, Stock Management, Loss Prevention
Safety & Compliance: HSE Protocols, Food Safety & Health Standards, Preventive Maintenance, Regulatory Compliance
Leadership & Strategy: Team Supervision & Leadership, Process Optimization, Workflow Restructuring, Vendor Management

KEY ACHIEVEMENTS

- Optimized operational workflows at Exodus Hotel Bar & Restaurant, improving service delivery times and overall facility management.
- Maintained a 100% safety and health compliance record across hospitality, CNG, and industrial plant operations.
- Implemented inventory control and stock monitoring procedures at African Fertilizer, significantly reducing stock losses and unaccounted variances.
- Reduced machinery and facility downtime through proactive maintenance scheduling across past operational roles.

PROFESSIONAL EXPERIENCE

Manager — Exodus Hotel Bar & Restaurant 2025 – Present

- Direct overall operations, facility management, and guest service execution for the hotel, bar, and restaurant.
- Develop and manage operational budgets, controlling labor, food/beverage, and facility maintenance expenses.
- Oversee facility upkeep, building repairs, and preventive equipment maintenance to ensure zero service downtime and high guest satisfaction.
- Enforce Health, Safety, and Environment (HSE) standards, food hygiene protocols, and quality control procedures across kitchen and dining operations.
- Lead cross-functional hospitality teams, driving continuous process improvements to boost operational efficiency and profitability.

Warehouse & Inventory Storekeeper — African Fertilizer

2024 – 2025

- Managed warehouse inventory systems using ERP tools to ensure accurate real-time tracking, stock reconciliation, and reporting.
- Enforced stock control procedures that significantly reduced material losses, audit discrepancies, and shrinkage.
- Coordinated warehouse space utilization and internal logistics to maximize storage capacity and operational flow.
- Upheld facility safety standards and material handling safety compliance.

CNG Plant Operator — Alef Waste Management

2023 – 2024

- Managed day-to-day operation and monitoring of Compressed Natural Gas (CNG) facility equipment for optimal performance.
- Developed preventive maintenance schedules for facility machinery to avoid unexpected breakdowns and downtime.
- Guaranteed strict adherence to environmental, health, and industrial safety regulations.

Geological Surveyor — Nigeria Geological Agency

2022 – 2023

- Supervised site drilling projects from initial planning through to execution and completion.
- Executed field surveys, analyzed geological data, and compiled technical reporting.

EDUCATION & CERTIFICATIONS

Certified Project & Facility Management (CIPFM) | Chartered Institute of Project & Facility Management, Jos (2024 – 2025)

B.Tech in Applied Geophysics | Olusegun Agagu University of Science and Technology (OAUSTECH), Ondo State (2018 – 2022)

LEADERSHIP & COMMUNITY INVOLVEMENT

- **Cadet Chief Officer** | Federal Road Safety Corps (NYSC)
- **Public Relations Officer (PRO)** | Geoscience Student Society (OAUSTECH)
