PROFESSIONAL SUMMARY

Detail-oriented Engineering Graduate with hands-on experience in maintenance, production, and process improvement. Skilled in conducting vibration and temperature checks, troubleshooting, and ensuring smooth equipment operation. Demonstrated leadership through command of a Community Development Service group. Strong analytical and teamwork abilities, eager to contribute to technical excellence and continuous improvement in engineering environments.

EDUCATION

B.Eng, Industrial and Production Engineering — Federal University of Technology Akure *Graduated 2024*

Final Year Project: Fabrication of Plantain Peeling Machine

Senior Secondary School Certificate (SSCE) — St. Peter's Unity Secondary School, Akure *2017*

First Leaving Certificate — Anglican Nursery and Primary School, Makurdi *2011*

EXPERIENCE

NYSC Intern Engineer – Maintenance Team — Sayed Farms Ltd *August 2024 – August 2025*

- Performed vibration and temperature checks to monitor machine health.
- Assisted in preventive and corrective maintenance of production equipment.
- Supported troubleshooting activities, reducing equipment downtime.
- Maintained accurate maintenance logs and reports.

Engineering Intern — Auto Shop *January 2023 – May 2023*

- Supported workshop engineers in diagnosing and repairing automotive systems.
- Gained practical exposure to mechanical tools and processes.
- Ensured adherence to workplace safety practices.

LEADERSHIP EXPERIENCE

President — NYSC Community Development Service (CDS) — Federal Road Safety Corps, Oluyole Command *2024 – 2025*

- Led and coordinated CDS group activities for the Federal Road Safety Corps (FRSC), Oluyole Command, overseeing planning and execution of road safety community projects.
- Represented and supervised fellow corps members, ensuring active participation and accountability across the group.
- Liaised with FRSC officials to organize road safety campaigns, sensitization programs, and community outreach initiatives.
- Demonstrated leadership, organizational, and interpersonal skills in managing a multi-member team toward shared community goals.

SKILLS

Technical: Preventive maintenance, MS Excel/Word, Machine diagnostics

Analytical: Problem-solving, Root cause analysis

Leadership: Team coordination, Stakeholder liaison, Public sensitization campaigns

Soft Skills: Teamwork, Communication, Adaptability, Attention to detail

CERTIFICATIONS

- B.Eng, Industrial and Production Engineering – Federal University of Technology Akure
- Jobberman Soft Skills Certificate
- Nigerian Society of Engineers (NSE) – Member
