

CURRICULUM VITAE

Degree: B.Sc. Biochemistry (2:1) | **Specialization:** Toxicology, Quality Control & Operations

PROFESSIONAL SUMMARY

Detail-oriented and analytical Biochemistry graduate (Second Class Upper Division) with combined expertise in laboratory research, quality control protocols, and administrative operations. Proven track record in pharmaceutical quality assurance at Niemeth International Pharmaceuticals and toxicology research at Obafemi Awolowo University. Adept at leveraging scientific rigor and strong leadership skills to drive operational excellence, executive support, and organizational success.

CORE COMPETENCIES

Laboratory & Technical:	Toxicology Analysis, Quality Control Protocols, Sample Testing, Laboratory Safety & Compliance, Data Analysis
Operations & Admin:	Executive Support, Administrative Workflow Optimization, Records Management, Event Coordination
Leadership & Soft Skills:	Team Leadership, Student Instruction & Mentorship, Stakeholder Engagement, Problem-Solving
Languages:	English (Fluent), Yoruba (Native/Fluent)

PROFESSIONAL EXPERIENCE

Research Assistant — <i>Toxicology Laboratory, Obafemi Awolowo University</i>	Recent
- Assisted in conducting rigorous toxicological assays, maintaining precision in experimental setup and data collection. - Ensured strict adherence to laboratory safety standards, protocol documentation, and equipment maintenance. - Analyzed scientific research data and summarized findings to support ongoing departmental research projects.	
Quality Control & Administrative Assistant — <i>Niemeth International Pharmaceuticals</i>	Previous
- Performed routine quality control checks on pharmaceutical products to ensure compliance with strict industry standards. - Provided high-level administrative support, assisting with documentation, tracking logs, and operational reports. - Streamlined office workflows to improve departmental efficiency and inter-departmental communication.	
Basic Class Teacher — <i>Educational Institution</i>	Previous
- Developed and delivered engaging instructional materials tailored to basic education students. - Monitored individual student progress, evaluated performance, and fostered an encouraging learning environment.	

EDUCATION

Bachelor of Science (B.Sc.) in Biochemistry

Obafemi Awolowo University

Classification: Second Class Upper Division (2:1)

LEADERSHIP & CAMPUS INVOLVEMENT

Director of Welfare

- Spearheaded student welfare initiatives, advocating for student needs and coordinating logistics for major department events.

Course Representative

- Served as the key liaison between academic staff and student body, effectively facilitating communication and resolving academic logistics.
