PROFESSIONAL SUMMARY

Results-driven UI/UX, Product Designer with a strong eye for clean, intuitive, and user-centered design. Skilled in transforming complex ideas into elegant digital experiences that increase engagement and business growth. Experienced in web and mobile product design, design systems, usability testing, and collaborative product development. Passionate about solving real-world problems through thoughtful design and data-driven decisions.

CORE SKILLS

- UI Design (Web & Mobile)
- UX Research, User Flows & Usability Testing
- Wireframing & Prototyping
- Brand Identity & Visual Systems
- Typography, Color Theory & Layout Design
- Graphic Design for Campaigns & Brand Activations
- Responsive Design & Accessibility (WCAG)

WORK EXPERIENCE

Senior Product Designer

The Morgans: January 2026 - Present

- Designed and refined website experiences for Oysterchecks, Morgan's Institute, Compare Africa, IGRCFP, and GRC FinCrime Magazine.
- Worked on user-friendly, brand-aligned layouts for professional and industry-focused digital platforms.
- Translated business and content needs into clean UI solutions that improved clarity, usability, and visual consistency.
- Supported responsive and accessible design thinking across multiple web projects.

Senior Product Designer

Filly Coder: January 2025 - Present

- Designed intuitive user interfaces for web and mobile applications to improve user engagement by 60%.
- Led the design of an interactive education platform focused on making learning engaging, motivating, and student-centered.
- Conducted user research and usability testing to validate design decisions.
- Created wireframes, high-fidelity mockups, and interactive prototypes using Figma.
- Collaborated with developers and product managers to ensure seamless design implementation.
- Built reusable design systems that improved design consistency and reduced development time.
- Translated business requirements into user-friendly product experiences.

Senior Product Designer

Coconnected: August 2023- December 2024

- Designed and delivered a mobile-first UI/UX solution for Coconnected, driving a 67% increase in user engagement.
- Built engaging, student-focused learning experiences through thoughtful design and visual storytelling.
- Executed user research, usability testing, and design iteration to refine product experiences.
- Created cohesive graphic design assets and scalable design systems to support product growth.

UI/UX and Graphics Designer

Boostalk: February 2022- August 2023

- Designed a mobile social platform for Boostalk featuring multiple user profiles for different life circles.
- Developed clear navigation and interaction patterns to support seamless profile switching.
- Conducted user research and usability testing to improve onboarding and usability.
- Created wireframes, high-fidelity designs, and interactive prototypes in Figma.
- Built reusable UI components and design systems for consistency and scalability.
- Worked closely with developers to align design vision with technical execution.

Brand Graphics Designer

Mercho Space: September 2021 - January 2022

- Translated brand strategy into visually compelling digital designs supporting brand activations, campaigns, and product launches.
- Designed activation assets across mobile, web, and social platforms to create cohesive, memorable brand moments.
- Ensured visual consistency across experiential and digital activations through scalable brand systems.
- Worked closely with developers to execute polished, responsive designs across activation touch-points.

EDUCATION

Covenant University, Ota, Nigeria: (Bachelor of Science) 2017 - 2021

CERTIFICATES

Certification: from Simplilearn: Introduction to Graphics Design; Advanced UI/UX
Certification: from Alison: Advanced UI/UX strategies
Certification: from Techion Israel Institute of Technology: UI/UX Advanced designing
Certification: from Covenant University: Diploma in Leadership Development
Certification: from University of California: Fundamentals of Management
Certification: from Techion Israel Institute of Technology: From Idea to Startup

SOFT SKILLS

- Strong communication
- Problem-solving mindset
- Attention to detail
- Ability to take feedback
- Time management
- Team collaboration

KEY PROJECTS

Oysterchecks - Risk Intelligence & Verification Platform

Problem: Complex risk and verification services were difficult for users to understand and navigate.
Solution: Designed a clear, professional website that simplified product discovery and user navigation.
Impact: Improved brand credibility, product visibility, and overall user experience.

Compare Africa - Price Comparison Platform

Problem: Comparing prices across multiple providers was time-consuming and confusing.
Solution: Designed an intuitive comparison platform with streamlined search and filtering.
Impact: Helped users find better deals faster and make more informed decisions.

Filly Edu - Student Performance & Motivation Dashboard

Problem: Students only saw grades, not real progress, which reduced motivation.
Solution: Designed a growth-focused dashboard with progress tracking, goals, streaks, and achievements.
Impact: Made learning progress visible and motivating, improving student engagement.

IGRCFP - Governance, Risk, Compliance & Financial Crime Prevention Platform

Problem: Industry professionals needed easier access to certifications, training, and resources.
Solution: Designed a structured website that simplified navigation across programs, events, and industry content.
Impact: Improved content accessibility, user engagement, and organizational credibility.

Design Process

Research → Define → Ideate → Wireframe → Prototype → Test → Iterate

Industries Worked With

EdTech, FinTech, E-commerce, SaaS, HealthTech, Startups, Government.
