PROFESSIONAL SUMMARY

Motivated and research-oriented Biochemistry graduate with practical laboratory experience, research exposure, and data analysis knowledge. Experienced in laboratory procedures, sample handling, scientific documentation, and research support through SIWES training and academic research projects. Skilled in analytical thinking, scientific communication, and Microsoft Office tools. Passionate about chemical biology, healthcare research, and AI-driven scientific innovation

EDUCATION

Bachelor of Technology (B.Tech.) in Biochemistry

Olusegun Agagu University of Science and Technology — November 2024

Research Project:

In Silico Investigation of Beta Secretase 1 from Aloe for the Treatment of Alzheimer's Disease

- Conducted literature review and research analysis
- Applied analytical and problem-solving skills in scientific investigation
- Documented and interpreted scientific findings accurately

EXPERIENCE

Medical Laboratory Intern (SIWES)

Joekem Pharmaceutical and Chemicals Nigeria Ltd – Enbal Laboratory Services

- Assisted in laboratory testing and sample analysis
- Collected, labeled, and documented biological samples
- Maintained laboratory safety and operational procedures
- Supported research documentation and reporting activities

Teacher (NYSC)

Jetomic International School

- Delivered lessons and coordinated classroom activities

- Prepared assessments, reports, and academic records
 - Demonstrated strong communication and organizational skills
-

TECHNICAL SKILLS

- Laboratory Procedures and Safety
- Scientific Documentation and Reporting
- Data Collection and Analysis
- Microsoft Excel, Word & PowerPoint
- Research Assistance
- Problem-Solving and Analytical Thinking
- Communication and Team Collaboration
- Internet and Scientific Research

PROFESSIONAL CERTIFICATIONS

Certifications from International College of Safety and Management Professionals

- Post Graduate Diploma in Occupational Safety & Health
 - Post Graduate Diploma in Oil & Gas Production Management
 - Post Graduate Diploma in Data Analysis
 - HSE Level 1,2 3 Certification
-

ADDITIONAL INFORMATION

- Strong interest in chemical biology and biomedical research
 - Quick learner with attention to detail
 - Able to work independently and collaboratively in remote environments
 - Passionate about scientific innovation and AI-driven research
