

OGEGE OGHENE-KARO

Graduate Civil Engineer | Project Management Professional (PMP–Associate) | Highway & Transportation Engineering

Lagos, Nigeria | 09038907286 | karoogege3@gmail.com

PROFESSIONAL SUMMARY

Civil Engineering graduate with practical experience in highway and transportation engineering, construction supervision, and project coordination. Currently serving with Planet Projects Ltd. (NYSC), supporting road infrastructure projects through engineering documentation, site supervision, project planning, and technical reporting. Certified as a Project Management Professional (PMP–Associate) by the Project Safety & Management Institute (PSMI), with strong analytical, organizational, and communication skills. Passionate about delivering sustainable engineering solutions while providing effective administrative and project support.

PROFESSIONAL EXPERIENCE

Highway Engineering Intern (NYSC)

Planet Projects Ltd. | Lagos, Nigeria
2026 – Present

- Support highway engineering and road construction projects from planning through execution.
 - Participate in site inspections, road surveys, and quality assurance activities.
 - Prepare engineering documentation, technical reports, and project records.
 - Assist with project planning, scheduling, and progress tracking.
 - Coordinate with engineers, contractors, and project stakeholders to support timely project delivery.
 - Promote compliance with engineering standards, quality requirements, and safety procedures.
-

Civil Engineering Intern

Daraplus Limited | Lagos, Nigeria
March 2023 – August 2023

- Assisted in surveying and civil engineering design activities.
 - Participated in construction site inspections and quality monitoring.
 - Produced engineering drawings using AutoCAD.
 - Supported project engineers in ensuring compliance with technical specifications and safety standards.
-

CORE COMPETENCIES

Engineering

- Highway and Transportation Engineering

- Structural Analysis
- Site Supervision
- Engineering Documentation
- Technical Report Writing

Project Management

- Project Planning and Scheduling
- Risk Management
- Stakeholder Communication
- Team Coordination
- Resource Management

Software

- AutoCAD
- Protastructures
- Civil 3D
- Google Earth
- Microsoft Office Suite
- Google Workspace

ENGINEERING PROJECTS

Final Year Project Leader

Structural Health Monitoring of Fatigue Cracked Roads 2024 – 2025

- Led a multidisciplinary student team investigating road failures caused by fatigue loading.
- Coordinated planning, field investigations, data collection, and technical reporting.
- Developed engineering recommendations to improve road durability and maintenance strategies.

Structural Design & Simulation Project

- Produced structural drawings using AutoCAD.
- Performed structural analysis using Orion software.
- Presented project findings before academic assessors.

EDUCATION

Bachelor of Engineering (B.Eng.)

Civil Engineering

Covenant University

2019 – 2025

CERTIFICATIONS

Project Management Professional (PMP–Associate)

Project Safety & Management Institute (PSMI)

Issued: March 2026

LEADERSHIP

- Assistant Welfare Director — Civil Engineering Society, Covenant University Chapter
 - Group Leader — Final Year Design Project
 - Member — Association of Civil Engineering Students (ACES)
-
